

Financial Services

With their considerable experience in the Irish Construction Industry and access to world-wide contacts and experience, Davis Langdon PKS are ideally placed to assist clients, developers, financial institutions and government agencies in:

- Public Private Partnership
- Independent Project Monitoring
- Development Appraisals
- Client's Construction Representative
- Project Management
- Feasibility Studies
- Risk Analysis
- Value Engineering
- 'Value for Money' exercises
- Procurement and Contractual Advice
- Construction Cost Management

Our PPP Unit have been involved in a number of Projects in Ireland advising clients and public Bodies and with our UK Partners on a wide range of projects. Davis Langdon PKS have the advantage of bringing their vast UK experience to projects here in Ireland.

Davis Langdon PKS have a dedicated Project Monitoring team. Our service includes independent monitoring of construction projects, development appraisals, feasibility studies, risk analysis, cost options etc.

We are currently involved in projects ranging from €0.5m to €200m in Ireland and abroad. Typically, the service provided is tailored to the clients' needs but still maintains the core requirements to guarantee investment certainty.
