

Mechanical and Electrical Services

The cost control of Mechanical and Electrical Services is now an integral part of the services offered by progressive quantity surveyors

The Davis Langdon PKS Mechanical and Electrical services department established in 1994 under the leadership of Martin Andrews has earned an excellent reputation of Mechanical and Electrical Engineering.

The Davis Langdon PKS M&E Team includes specially trained and experienced M&E Surveyors, with a working knowledge of Mechanical and Electrical Engineering.

Working with the services engineers the Davis Langdon PKS M&E team are able to provide advice on:

- Feasibility studies
- Cost estimates
- Procurement
- Cost Management
- Cost Reporting
- Value engineering of mechanical and electrical services
- Life Cycle Costing
- Project Management

Projects on which Davis Langdon PKS have been retained to provide cost management services for the mechanical & electrical services:

- James Connolly Memorial Hospital
- Blanchardstown Institute of Technology
- Athlone Institute of Technology
